Pharmacology: LIVOSIL - H revitalizes the liver by reinstating the functional efficacy of the liver. All the ingredients of LIVOSIL - H are hepatoprotective and possess detoxifying action. Together, they counteract the liver-damaging effect of potential toxins such as alcohol, antitubercular, antimicrobial, cytotoxic drugs. 12 out of 13 ingredients of LIVOSIL - H have established antioxidant action, which prevent the peroxidative changes in the liver cell membrane due to hazardous free radicals. LIVOSIL - H inhibits TBARS (Thiobarbituric acid reactive substances) thereby reducing antioxidant action even at the mitochondrial level. Choloretic ingredients of LIVOSIL - H ensure rapid elimination of bile in cases of hepatocellular inflammation thus speedy normalization of hepatic biochemical parameters (SGPT, SGOT, Bilirubin etc) 5 ingredients in LIVOSIL - H, achieve the regenerative action at the hepatocellular level. Hence, LIVOSIL - H is extremely useful in pre-cirrhotic conditions and early cirrhosis. LIVOSIL - H also contains potent antiviral herbs, which have ascertained antiviral action against HAV, HBV, HCV, HDV, and HEV. LIVOSIL - H diminishes the lipotropic activity in chronic alcoholism and prevents fatty infiltration of the liver thus being very useful in alcoholic liver disease. As a daily supplement, LIVOSIL - H improves appetite, promotes digestion and assimilation processes and relieves constipation. The immunomodulatory ingredients of LIVOSIL - H enhance generalized

immunity.

LIVOSIL - H is an ideal combination. The ingredients are well absorbed after oral administration and provide prompt relief.

Indications

LIVOSIL - H is useful in the treatment of:

1. In the prevention and treatment of Viral hepatitis of all types
2. Alcoholic liver disease
3. Amebic liver disease
4. Pre - cirrhotic conditions and early cirrhosis
