

SALIFRESH FOMING FACE WASH

Salicylic Acid 2% w/w + Neem Extract 0.5% w/v+ Lemon Extract 0.5% w/v

COMPOSITION

Each ml of Salifresh foaming face wash contains:	
Salicylic Acid	1200 mg
Neem Extract	300 mg
Lemon Extract	300 mg

PHARMACOLOGY

Salicylic Acid: Salicylic Acid, a beta-hydroxy acid and outstanding deep cleanser most commonly used to treat comedonal or non-inflamed acne. Salicylic also destroys the bacteria below the surface, helping to unclog the pores through exfoliation, creating better breathing passages for the skin. It works as a keratolytic, bactericide and comedolytic agent by causing the cells of the epidermis to shed more readily, opening clogged pores and neutralizing bacteria within, preventing pores from clogging up again by constricting pore diameter, and allowing room for new cell growth.

Neem Extract: Neem Extract powerfully detoxifies and purifies and gently cleans and clears the skin. It facilitates the absorption of moisturizing oils and acts as natural moisturizer that keeps the skin hydrated. It exfoliates dead cells of skin, removes grime and grease from the skin pores. It also possesses anti-bacterial & anti-oxidant property.

Lemon extract: Lemon extracts remove all traces of acne-causing and grime and refresh the complexion. Skin becomes visible flawless and satiny smooth.

INDICATION

Salifresh foaming face wash is indicated for oily and acne prone skin.

APPLICATION

Squeeze a small quantity of **Salifresh foaming face wash** on your palm and mix with little water. Massage gently over face and neck in circular motion. Rinse thoroughly with water..

WARNING

Before using salicylic acid, tell your doctor or pharmacist if you are allergic to it; or to nonsteroidal anti-inflammatory drugs-NSAIDs (e.g., aspirin, ibuprofen, naproxen); or if you have any other allergies. This product may contain inactive ingredients, which can cause allergic reactions or other problems

Salifresh foaming face wash contains a salicylate, which has been linked to Reye syndrome. Do not use salicylic acid cream on children or teenagers during or after chickenpox, flu, or other viral infections without checking with your doctor or pharmacist.

PRECAUTIONS

Pregnancy and nursing mothers: If you become pregnant, discuss with your doctor the benefits and risks of using **Salifresh foaming face wash** during pregnancy. It is unknown if salicylic acid cream is excreted in breast milk. Do not breast-feed.

Pediatric use: Caution is advised when using **Salifresh foaming face wash** in children because they may be more sensitive to its effects.

DRUG INTERACTION

Concomitant other topical acne drugs may cause dryness or irritation.

Salifresh foaming face wash may cause side effects like skin irritation or stinging in the area of contact.

PRESENTATION

Salifresh foaming face wash is available in 60 ml pump bottle.

STORAGE

Keep **Salifresh foaming face wash** tightly closed and out of reach of children. Store it at room temperature and away from excess heat and moisture.
